EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 9/22/04, Mr. Samuel Stone requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 150665 the required fee of \$55 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

In the paragraph at page 4, lines 2-14, second last line of the paragraph, delete "synthetic resinous polymers of butadiene and styrene" and replace with --K-Resin® (a synthetic resinous polymer of butadiene and styrene)--

In the paragraph at page 19 line 15 to page 20 line 4, lines 5-6 of the paragraph, delete "synthetic resinous polymers of butadiene and styrene" and replace with --K-Resin® (a synthetic resinous polymer of butadiene and styrene)--

In the paragraph at page 35, lines 5-14, second last line of the paragraph, delete "synthetic resinous polymers of butadiene and styrene" and replace with --K-Resin® (a synthetic resinous polymer of butadiene and styrene)--

IN THE ABSTRACT:

Delete from sentence at line 14, starting “The body may also include one or more ribs . . .” to the end of the abstract.

Reasons For Allowance

The following is an examiner’s statement of reasons for allowance: claims 101, 64, 65, 102, 73, 74, 98, and 99 are allowed because the recited combination of elements of a guard for a syringe including a body for receiving a syringe, one or more lateral surfaces on the proximal end of the body defining a recess for receiving the proximal end of the syringe, a shield slidably attached to the body between a guarded and unguarded position, cooperating detents on the shield and body, wherein the lateral surfaces comprise a locking mechanism of locking detents in the lateral surfaces is not found nor fairly taught in the prior art of record, as argued by applicant and agreed to by examiner. The prior art shows locking detents that protrude interior of the body, and therefore are not in the lateral surfaces of the body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Hayes at (703) 305-5873. The examiner can usually be reached Monday -Thursday, 7:00-4:30, and on alternate Fridays. If attempts to reach the
